PROFESSIONAL SUMMARY

Aspiring Front-End Developer skilled in React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, TailwindCSS, and Bootstrap. Experienced in creating responsiveness. Proficient in integrating REST APIs, managing application state using React Hooks, and implementing Firebase authentication. Possess strong problem-solving, collaboration, and adaptability skills, with a proven ability to deliver projects that improve user experience and efficiency.

TECHNICAL SKILLS

Languages & Frameworks: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap, Tailwind

State Management: Context API

Tools & Platforms: Git, GitHub, Firebase, NPM

Web Technologies: REST API, JSON, Responsive Web Design

Soft Skills: Problem-solving, Collaboration, Time Management, Adaptability

PROJECT EXPERIENCE

Front-End Developer (Project) — Random String Generator Application

- Developed a responsive web app to generate random strings with customizable options for uppercase, lowercase, numbers, and symbols.
- Implemented localStorage to maintain a history of generated strings.
- Built with React and TypeScript for type safety and component reusability, styled using Tailwind CSS for clean UI design.

Front-End Developer (Project) — Ticket Management System

- Implemented a ticket management board with drag-and-drop functionality using **dnd-kit**.

- Managed global state efficiently with **React Context API**.
- Enabled ticket creation, status updates, and deletion with persistent storage via **localStorage**.
- Project available on Portfolio website.

Front-End Developer (Project) — To-Do List Application

- Created a task management application with Firebase authentication and Local Storage persistence.
- Integrated project-based task grouping and deadline tracking for better productivity.

Front-End Developer (Project) — Portfolio Website

- Developed a personal portfolio website using React.js and Bootstrap to showcase projects and skills.
- Implemented responsive design principles.
